NOTE

Dopo il nome del *syntaxon* e il relativo autore possono comparire i simboli seguenti che qualificano il tipo di segnalazione:

[I] *syntaxon* riportato unicamente quale inquadramento di altri;

[S] *syntaxon* riportato solo quale sinonimo di altro *syntaxon*;

(trattino e nessun simbolo tra parentesi quadre) *syntaxon* effettivamente segnalato in quanto tale.

Ove nello stesso lavoro e mediante ugual tipo di dati, il medesimo *syntaxon* venga segnalato e risulti anche di inquadramento di altri *syntaxa*, viene riportata unicamente la segnalazione effettiva.

Dopo il numero in grassetto che identifica la fonte nella Bibliografia Fitosociologica Italiana compaiono i simboli che si riferiscono alle possibili condizioni di novità sintassonomica o nomenclaturale del *syntaxon* segnalato nel lavoro citato:

* *syntaxon* di nuova descrizione con indicazione di *holotypus*

^ *syntaxon* di nuova descrizione con indicazione di un tipo nomenclaturale

+ *syntaxon* di nuova descrizione senza indicazione di un tipo nomenclaturale

indicazione di *lectotypus*

§ indicazione di *neotypus*

° attribuzione di *nomen novum* a un *syntaxon*

(nessun simbolo indicato) mancanza di condizioni di novità sintassonomica o nomenclaturale

La lettera maiuscola che segue immediatamente fa riferimento alla natura dei dati disponibili per il *syntaxon* citato nel lavoro indicato:

T tabella analitica

S tabella sintetica o sinottica

R rilievo singolo

C elenco delle caratteristiche

L lista floristica

I lista floristica incompleta

(nessuna lettera indicata) assenza di dati di supporto

Ove nello stesso lavoro la segnalazione di un *syntaxon* venga supportata da dati di tipo diverso viene riportata unicamente la registrazione relativa al tipo di dati considerato maggiormente informativo in accordo alla sequenza decrescente qui sopra indicata.
